

A Reflection on the Servanthood Mentality

1. Do you know the needs of those around you?
2. Would you serve others actively, or only when being invited?
3. Would your response depends on whom you serve?
4. Would you be committed in serving, or treat it just as a duty?
5. Would you be serving only when the thing is prominent, and let others serve when it is not eye-catching? Are you willing to serve when being unrecognized?
6. Would others be relaxed when things are entrusted to you, or do they need to give you frequent monitoring?
7. Are you faithful in doing small things as in big things?
8. Would you regard serving others as a privilege or a duty?
9. Would you be willing to sacrifice in serving others, not counting on your losses?
10. Would you be burnt-out in serving others?
11. Would you be able to maintain your servanthood mentality when others treat you as a servant?
12. By what means can you serve those around you?
13. By what means can your cell group serve the community?
